Subject: Arthur's Counting Troubles

The Microsoft Anti-Trust private and educational settlements were rejected on the grounds that the amount proposed was far too low! Who's counting for the government, Enron or Andersen's group?

Add a AOL Time Warner settlement recalculated over one year ago from their merger (estimated at about \$1 billion dollars from Gerald Levin's figures) and my claim reaches into the billions of dollars without any others factored into the settlement.

Should we use Arthur Andersen's Accenture Group or another respected Big 5 accounting firm in order to calculate the right amount? Can we even trust their CEO after the Enron debacle?

My previous totals, including revenue from Disney, Gary Goldberg / SKG Dreamworks, NBC, Sears, IBM, Microsoft without access to television advertising logs for revenue streams and royalty calculations is over \$1 billion dollars. If the USDOJ gives me legal authority and a motivated accounting team, I'll direct the team to the proper TV commercial logs, advertising agency orders, computer manufacturing records & software license sales. Together we'll obtain a more accurate settlement figure, for a lasting peace!

Include me in on these discussions. Decisions on my future, and my money (in the billions of dollars) must be discussed with me, in person!

The sum owed to me is greater than the total 2002 appraised value of the NBC Burbank campus and technology! That's why I am not disappointed to see a full studio audience at the Tonight Show ahead of me! I don't need to be in the studio audience ... I'll be just as pleased to own the campus and schedule additional productions at unused soundstages within NBC! I can hire additional staff and production workers for new shows, employ more Californians who are seeking work, and we can all have a great time in entertainment! Plus we'll contribute more corporate taxes for General Electric to consider, and help the governments as well!

The USDOJ cannot ignore my email, my legitimate legal rights and claims.

After all, the IRS and other government agencies will receive their fair share of the settlements as well!

Enclosed is a reminder from the end of 2001, over three weeks ago!
